

EXHIBIT "A" - GUIDELINES FOR SURVEY RIBBONING BEFORE A SITE INSPECTION

L E G E N D	
<div>WOOD SURVEY STAKE</div>	Standard wood survey stakes should be used for all point marking. This includes, Property Pins, Envelope Corners and Turning Points in the 5 Foot Offset Ribbon.
<div>PROPERTY PINS</div>	There should be at least four Property Pin that are marked with wooden stakes that have one of the approved ribbon colors tied at the top of the wooden stake to make it as visible as possible.
<div>ENVELOPE CORNER</div>	There should be at least four Envelope Corners that are marked with wooden stakes topped with a ribbon tied at the top of the wooden stake to make it as visible as possible. These may be squared off showing the furthest envelope point in each direction.
<div>5 FOOT OFFSET</div>	<p>This is a continuously ribboned area that is 5 feet out from the future foundation footprint and hard surface areas and should follow all of the contours. Upon receiving an approved site inspection you may clear all vegetation within this 5 Foot Offset.</p> <p><i>*NOTE: Even bald lots require a site inspection to check additional items some of which include the placement of the homes is correct on the lot and that the driveway does not interfere with any inlets, light poles, etc.</i></p>

**\*NOTE:**  
To ensure high visibility, only the four following survey ribbon colors are allowed.  
**YELLOW, PINK, ORANGE & WHITE.**  
Lots which are ribboned with any other colored ribbon will not be inspected and a \$50 re-inspection fee will be charged for the next inspection. You may use one or all four colors to ribbon your lot. It is not necessary to use a different color survey ribbon for each type of marking. The colors used in this exhibit are for visualization and example purposes only.
